Caption:	#repost @bbcearth: This is the start of an important night for this female raccoon living in downtown Toronto. She has to move her last kit down from the maternal den, safe inside a chimney, to a new home at ground level. Carrying her young she will have to make a perilous descent down a vertical brick wall. Caption:	Tonight on BBC1, #planetearth2, 8pm... Cities are growing at a faster rate than any other habitat on Earth. They may seem an unlikely place for animals to thrive, but they can be a world of surprising opportunity. In this clip, an alpha male langur takes part in a high speed chase across city rooftops to defend his females from marauding younger males. #earthcapture #earthonlocation #davidattenborough
